

## Declaration of compliance

Item number: 70115  
Item name: Nylon Paddle Scraper Blade, rigid, White

Business operator: **Vikan A/S**  
Rævevej 1  
7800 Skive  
Denmark  
Tel.: +45 96 14 26 00

Materials: **Polyamid white (nylon) 100 %**  
Monomers and additives used to manufacture this grade are listed in Commission Regulation (EU) No. 10/2011 of 14. January 2011 on plastic materials and articles intended to come into contact with foodstuffs.

FDA: All raw materials in this product are in compliance with FDA (Food and Drug Administration in the USA) CFR 21.

EU Commission: The product is produced according to EU Commission Regulation no. 2023/2006 of 22. December 2006 on good manufacturing practices for materials and articles intended to come into contact with food (GMP).

Overall migration tests are made on this product. The product meets the requirements regarding overall migration to 3 % acetic acid, 50 % ethanol and olive oil.

Following additives with specific migration limits are used: Carpolactam, cas-no. 105-60-2; 15 mg/kg and Primary aromatic amines; 0.01 mg/kg are made.  
The results for specific migration of Carpolactam exceeds the limit value when measured with 50 % ethanol as food simulant.

Food contact: Limitation regarding usage; the scraper may not be used in contact with alcohol.

Usage temperature: Min. temp.: -20 °C  
Max. temp.: 100 °C

General: It is recommended that equipment is cleaned, disinfected and sterilised, as appropriate to its intended use, before use.

It is also important to clean, disinfect and sterilise equipment after use, using the appropriate decontamination chemicals, concentrations, times and temperatures.  
Appropriate equipment decontamination will minimise risk of microbial growth and cross contamination and maximise the efficiency and durability of the equipment.

Max. Wash temp.: 121 °C

Date: 4th July 2013
